~400 000 years ago (MIS 11): analogue for present  
and future sea-level?” by D. Q. Bowen (2010)  
Can the extrapolation of uplift rates from MIS 5e  
shorelines to MIS 11 replace direct and tangible  
evidence of the latter’s sea-level history?” by

In point 26 of the table for this article, Hearty (2010) points out that there are a significant number of errors in the reference list of Bowen (2010). The editors of CP regret that their procedures did not identify these errors before publication, and they are changing those procedures as a result. Meanwhile, we have asked Prof. Bowen to

C23

submit a corrigendum for his reference list, and that will be linked to the Bowen (2010) paper.
