Dear Christophe,

Both reviewers have provided detailed comments and suggestions about your manuscript which require to be precisely considered. Addressing these comments will definitively improve your paper and I would recommend you to carefully consider the different points raised by the reviewers and revise the manuscript accordingly before submitting to CP. I understand that this represents some work to provide but also consider this will benefit your paper. If you were facing any problem in revising the manuscript, just contact me anytime. With my very best regards.

Denis-Didier Rousseau
